

**Table 2.01 Which Regions Do International Students Come From?**

|                              | ENROLLMENT <sup>1</sup> |         |        | SHARE OF TOTAL <sup>1</sup> |        |          |
|------------------------------|-------------------------|---------|--------|-----------------------------|--------|----------|
|                              | 2000                    | 2025    | CHANGE | 2000                        | 2025   | CHANGE   |
| Asia                         | 280,000                 | 843,000 | +201%  | 54.4%                       | 71.6%  | +17.1 pp |
| Africa, Sub-Saharan          | 26,100                  | 65,400  | +150%  | 5.08%                       | 5.55%  | +0.5 pp  |
| Oceania                      | 4,680                   | 7,270   | +55.4% | 0.909%                      | 0.617% | -0.3 pp  |
| Middle East and North Africa | 26,900                  | 51,000  | +89.7% | 5.23%                       | 4.33%  | -0.9 pp  |
| North America                | 23,500                  | 29,900  | +27%   | 4.57%                       | 2.54%  | -2.0 pp  |
| Latin America and Caribbean  | 62,700                  | 87,900  | +40.3% | 12.2%                       | 7.47%  | -4.7 pp  |
| Europe                       | 90,700                  | 93,400  | +2.98% | 17.6%                       | 7.93%  | -9.7 pp  |

<sup>1</sup> Counts represent total international students across all degree levels by region of origin. Shares are calculated as a percentage of all international students. Change is the relative change for enrollment and the percentage-point change for share, between 2000 and 2025.

Data from IIE, “International Student Totals by Place of Origin,” Open Doors, 2025.  
Chart by Emerson Johnston and Amy Zegart, Stanford University.
