Venezuela	+5.00	+0.200	+1.20	+2.80	+1.50	+0.100	-1.70	-5.60

¹ Each cell is the percentage-point change in percentage points, in the share of that country's U.S.-bound international students enrolled in the field, from the first to the most recent year available (2010–2025 for most countries; 2012 for Iran, 2018 for Bangladesh). Column headings are abbreviated: Computing is mathematics and computer science, Sciences is physical and life sciences, Social Sci. is social sciences, Arts is fine and applied arts, Engg is engineering, Health is health professions, and Edu is education. Red marks fields gaining share, blue marks fields losing it. Columns are ordered from the field gaining most across countries to the field losing most. Countries are ordered by total international enrollment, largest first.
